Dear Mr. and Mrs. Narain:

RE: **WORKPLAN FOR FORMER DELTA DISCOUNT GAS STATION,
28111 FRONT STREET, TEMECULA, RB CASE NO. 9UT2937,
SUBMITTED BY TECHNOLOGY ASSOCIATES INTERNATIONAL CORP.
DATED FEBRUARY 26, 2001**

The San Diego Regional Water Quality Control Board (RWQCB) received the document referenced above on March 1, 2001. RWQCB staff has reviewed the above mentioned document and we concur with the proposed work, provided one of the soil borings will be placed near the origin of the unauthorized release. Rapid implementation of the workplan is imperative based on the amount of pollution already documented on site and the possible impacts the pollution may have on the downgradient public supply well, Rancho California Water District Well #118. Please notify the RWQCB a minimum of five (5) working days before the initiation of any work at the site. Implementation of the workplan should commence no later than April 30, 2001.

Pursuant to California Water Code (CWC) section 13267 a final report summarizing the field activities, the results of soil and groundwater sampling, and documenting the extent of petroleum hydrocarbon pollution vertically and horizontally, both on and off site is due to the RWQCB on June 29, 2001.

Any person failing or refusing to furnish information requested under the authority of CWC section 13267, or falsifying information submitted to the Regional Board pursuant to such a request, is guilty of a misdemeanor and may be subject to civil liability. Civil liability may be imposed administratively by the RWQCB in an amount of up to \$1,000 per day of violation (i.e., for each day of delay in submitting **all** information requested, or for each day that false information remains uncorrected).

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at <http://www.swrcb.ca.gov>.
